## Fairfield Pioneer History of Lassen Co., Calif. (Susanville, 1916)

Hopson - May 8/1859, Bancroft's History, says that Lassen went east as a slave of  
Corn. Stockton in 1847, & for a year & a half of the way to 12 yrs. there Es settled on his  
grant at mouth of Deer Creek, SE Tehama Co.

On Big Bend of HR, he turned into the Applegate road to South Oregon.

Bancroft says in 1846 Levi Scott, J. Applegate, L. Applegate, John Scott, Mrs. Harris, Sam Goodhue, Wm. Spotswood & others started for Point Ore to find a route for the  
then Cascade mt., & out to Big Bend & Co. they arrived - July - road to HR  
& went on to Fair Hall to meet the E. - they got 95 to 100 yds to go up the mountain  
of taking the route at - 42 yds.

On Big Bend, later called Lassen's Meadows they left the road & went to Antelope Sp.  
& then to R.H. Sp. After to Big Bend Sp. west of Black Rock mt. - to mud meadows.  
then to visit High Rock Canyon - to pt. o. of Massac Lake, SW to 49  
Canyon to Surprise V - to Fair Lane Pass (Lassen's Pass) to Goose Lake V - down  
to E side, the old road then turned NW & went around the N side of  
Clear & Lake Lake.

Lassen followed the A. road till he reached lower end of Goose Lake, & here  
the Lassen trail really begins - Pit River men mounted Rattlesnake C - to  
Stone Lake Coal V

Lassen trail a Holy Terror - called Death mt. & Lassen's Horn mt. (gold  
no Cap. Horn) - Fair L. Meadows to R.H. Sp. is 30 mi (out Sp. 1/2 way), at the time  
none of these spots had been opened up, & appeared as flat water - 30 mi  
an descent to Big Bend Sp. w/ of Black Rock mt., & 5 mi beyond that to  
foot of grass near HR.

at HS a group of boys in a band, & in the High Rock Canyon also - fears  
given out, etc. - Fair HS to mud meadows they had a long stretch of  
sandy desert, & Delam says they let their legs down into HR Canyon  
ropes. Fair Surprise V up the Fair Lane Pass the mt. looks a person - the  
face, & one / hardly want to go over it w/ a pack train - maybe try  
for HS V to Big V - makes hair stand - end to see where the train  
down into Horse Lake Cr. at Little Dixie V, mountains in trees show ropes also
