V written ser X since I left to Queen City & v me seem to  
 just a stroke of a pen for any of you - I recall here 2 days ago  
 we made physical after a haul of 105 days during which time  
I underwent a yr deal of hardships & suffering but all to no effect  
 & I should it much better than I had expected. Sac City is  
 ahead of anything I can see - in 12 months of 1000  $\frac{1}{10}$   
 35 + 45000

I v not seen Frank since he left Winton.

Altho I did not suffer myself yet I saw hundreds  
who did some of whom had not a morsel of bread for 48 hrs...  
Ev' person stuffed up too small an allowance of provisions &  
had it not been for the donation of \$30,000 worth of provisions to  
City of Sac C. the Corps (?) - sent 250 miles of horses  
to meet the us to edge of the Gr Desert

I advised no one to come to Camp of Red of the fatigue  
that they undergo & to assist about the animals & arrange to  
break down the stoutheaded colts

V sleep - up up - but ev' since I left Ft Laramie  
 of hunger of 1500 hrs, I v me had first symptoms of cold,  
self had crachin & self meat broiled - cooked in the  
mules broke down, however - I v self myself to the museum  
 when I and ~~some~~ of the had been one - to place for of  
 all the horrible looked objects you can see I suspect
