 9/3 sent on road  
 Levensworth was the last city we left and for 2 or 3 we didnt  
 see anything but a few farms and the rest of the way in time of 18 days travel  
 to FKy nothing but hills and hollows and heaven and earth a regular deseret.

FK 9/20 lv 27 t for FT L on way a man couldnt see anything but  
 baar hills and hollows a few birds, deers, Elk, Rabbits and wolves of  
 them there were thousands of them and from Kearn upwards there were also  
 lots of Buffalow kd for fresh meat

The best I have seen which nature can afford to show us was a  
 place have way bet K and L a named Ash Hollow, th this was from 7 to 8  
 miles nothing but hard Rock/ies, and was the steepest road for wagons and  
 tv I ever seen. But from AH to L I saw many nice and funnv things  
 whi ch nature had put there, and the nicest I have seen in the limli  
 is the Chimney/Rock which is one of the most nicest figures of  
 nature to see and others more.

After 19 days tv we arrvd FL, where we found r co in a pretty bad  
 fix through desertion and dieing. . Stayed over winter As the Fort  
 was set with Infantry before, we had to build a side post as a company  
 of the 4th Regiment, and had to live in tents all winter made out of  
 Buffalo skins, but they were made handy and warm
