Camp No. 43 - 135 miles above Fort Kearney - to Santa Fe
of the Platte 5/20/50

I avail myself of the return of the Captain of the train to the state,
to write you a few lines to let you know how I am progressing - we left
after leaving the state line (the last place for which I wrote you) we trail
about 50 miles thru the "Shawnee" Indians. These are a lousy, thievish
looking set - by about 400 - we then came to the Pottawattomie Indians,
a parcel thru the top called "Umuckton" at the crossing of the Kansas River.
This town consists of abt 50 log huts, w/ pop 300 - here physician, 2 bds,
wagon maker, 2 gun smiths, & a circular saw mill

Crossing at the Kansas, we encamped near to meet y^r chief, who had
the U.S. flag floated proudly over his mess. habitation a very ugly
looking. It swarmed and a couple that might, but we had money to
fear for them; so they only wanted whiskey, an article which the govt has
prohibited.

Pot Is

after by the way 10 miles, we arrived at the P-mission, about 1/2
calculator for the cross-the it - it is our next lousy place consists
3 or 4 two story log huts. & about 20 small log huts. There is here
v. lg farms, & seen the 2nd Indian

Thru this part we came to the Little Vermillion - here a Frenchman
w/ his family called to see his professor as a sick child - they had
been able to read & write - Indian number about 4,000.
