 Pine Green in top top + in the case to NFP + the upper in wood
 + so one of myel his own body - picked on box - as I saw
 it was that boat for me to unload the logs + keep pull the boat
 up - all went off well till the last load xap - it was in 88 to
 be till my in we came over oth side I then got a board
 of a boat + shd had till we shd got to shore when a boat
 struck a [?] of another prop + almost upset it I entered the soap
 xpecty to haul a boat but it pulled me overboard. I had to struggle
 for life. I hauled myself out of the soap that was stretched across to
 it was an instant - the haul of boat to save me. John was the soap + as
 I suppose was afraid wood shd get killed y over to load + started
 the shore but as I was down by all I had to save myself I did not
 see in what position they was in - some said they had hold of each
 other but when I got opp. to them they was above + fell apart John
 as I suppose started of the boat + I saw him no more I that he
 was under the boat I done every I get some one to go in after
 William but all time I did do was to throw some board to him
 but all - vain to save him for water (G) - they club pool

I wrote a board + left a to bones oth shore . . .
