

- > Langworthy 51-42 - pyramidal, column - masonry of a
mosque or smoke-pipe of a steamer
- > Robt 51-55 - p. the C.A. we've mentioned been in view of this
for some time 24 hrs before an. or is. It is prob. 200' high
& seems to be a conglomeration of rock industrial clay
- > DeLano 49-76
- > Buzo 66-155 opinion of Mr. Buzo
- > Clarke, BC 49: 19 a very curious natural production - some
250' above the river in the shape of a square
column some 60' thro' its base. It is supposed
that it was once a large round hill - volcanic
stone here may & some local cause
some 6 or 8 mi when Joelett's wagon crosses down
- > Lewis 55: 318 Heavy rain - train took road next to the
bluff instead of the river road - road rode ahead to
11 mi to some springs 3 mi E. of CR, where there
was some ponds called "the Lakes" - clear-brotherly
visited by band of Indians at full charge -
Little thunders - due N. of CR -
burial of Langmahon - Indians frightened
most Cal Alexander, Mary etc - they doubt
ability to get them over scarcity of grain
- Bidwell 41: 7 another object, still one angular & int -
called of the mountaineers - the Chimney etc
obscure cone
- Williams 41: 16 many curious shapes & forms - crosses, waf
steeples - chimney - funnel, small and upper -
most - c. part 100' hi, 30' square
- > Brent 42: 76 CR - shot tower in Baltimore - 200'
possibly 500'
- Ag Allen 42: 152 strikingly like the contemplated
Washington monument - scenery more singular
- > Carleton 45: 232 CR masonry at 30 mi
235 one of the gr. curiosities - perhaps
XX The greatest - in the whole valley of the river -
deception altogether, etc
- > Cook 45: 314 a tall post seen a mile off
XX Sketch - very romantic description

- > Langworthy 50:42 - - pyramidal, column - masonry of a
mosque or smoke-pipe of a steamer
- > Robt 51-55 - p. 10 C. on W. v. m. m. been in view of this
for years than 24 hrs before an. or is. It is prob. 200' high
& seem to be a conglomeration of rock & industrial clay
- > DeLano 49:26
- > Buz 66-155 opinion of Mr. Buzen
- > Clark, B.C. 49:19 a very curious natural production - some
250' above the river in the shape of a square
column some 60' thick its base. It is supposed
that it was once a large sand hill - volcanic
stone here may v some local cause
some 60' & m when John Hart's wagon breaks down
- > Lewis 58:318 Heavy rain. train took road next to the
bluff instead of the river road - road rode ahead to
11 mi to some springs 3 mi E. of CR, where there
was some ponds called "the lakes" - clear beauty
visited by band of Indians at full charge -
Little Thompson - due N. of CR -
burial of Langmahaw - Indians frightened
most Cal. Algonquins, many with - they doubt
ability to get thru great scarcity of game
- > Bidwell 41:7 another object, still on original + into -
called of the mountaineers - the Chimney etc
obscure cone
- Williams 41:16 many curious shapes & forms - horasso, w
steeples - chimney - funnel, small and upper -

 - Ackley 49 - C rock (abbr.)
 - Amos 49 - Chimney Rock house - Col gave notice them of
 preaching in Camp at 5 Pm by member of the train, listened
 to w/ much int, perhaps of novelty of the scene
- Essey 51 (NS) liberty pole - truly it is a wonder - gr pt
 of the top has fallen down
- Lindsay 49 - will eye single long v entirely moldered away
 - Dunlop 64 - ch of a steam-mill - dist horizon, CR loom up
 in distance like the monument of some departed hero
- McAlamy 49 - The noted CR
- Ferris B 52 - justly celeb CR, ptg its solitary cone to the sky.
 + for ch' you ev moment expect to see issuing smoke or
 jets of steam from the pierced furnace beneath, of all the
 fantastic pieces of Damn Nature - This is cent the strangest.
 - but this curiosity has been well described - v I will
 not inflict another for the reader
- Langwith 53 (NS) Very strange

Wood 50 - shape pyramid 350' - thousand names - Col. Talbot stopped his ge. acc. days, tryg to ascend the top - it is fast mouldery to ruins or if you don't look sharp, my frs, you l n'r see it

Wana 49 - elev. mass of rock, tall column - like frog - 250'

Milgar 50 - Circular 34 rods from, Base 60 rods diameter, taper up 90', forming a handsome space for a walk or promenade around it; another gradual taper 60', 2nd offset - up 30', another gap, last offset, - done on Ch 15' diam up 60'

Show 49 - object of mts to all corners of the ground in nature - Ch of an gr factory - by sym mound 100', shaft to 100' 50 x 60' diam at base - rough, ragged pile

Fernholm 52 - eq. celest Ch - obelisk - will not waste words - decep distan, walk in vain

Ch + Ch not alone - scenery of wonderful mag scattered over a dist of 100 miles

Dunwoy 52 - (NS) - tall spire in the blue distance, pointing towards the heavens. - Becomes a ch. x sturdy like a dome-shaped bldg. - work - mammoth haystack w/ a pole projecty - 300? acc to guides, does not appear 1/2

Barley 53 - stood out & italy like a ch after he had burned

Holliday 65 - Sgt ambushed & ruin of Sax + K. & scalp CR station, 25 - 3.5 w/ Inf. - an old furnace stack standing alone like a gr. obelisk - 170' - legend of I who climbed it - (P)

61 X

Show 50 - column of an immense height, round & perfect as tho built by human hands

General 50 - see CHR

137 Green-Smith 47 East strag of lye - hard clay, towers 300' - other res. old demolished vills, w/ stovepipes sticking out of gr - about caught in dreadful hail-storm. hostile plants - sage, greenwood, prickly pear

77 Hale 49 - The great CHR first seen - noble monument XX - beyond, 5 miles + another CR

164 Reedy 43 - truly smy & striking - may be 200' x 800' circ a shaft - column 15' d x 175' - pillar has for top a fissure ext 40', thro'tg distance - no work of rains (P) no doubt in a few yrs l to be destroyed

235 Snyder 45 - 18 m another can c. to ch - app of a huge column - app of a light he en received across the level plain - ~~Division~~ - Ch in sight of 3 days
backwards 50 (HS) 40 m E, looks like Tamety Church
Steeple in NYC - Long tree - argument about
rate of travel (we go at a peaceful rate) -
6/2 named at CR - 100 + 100

131 Stapler 49 - C. 5 m E - 1 m off road - before reaching it
we passed sev new made Gs - app near rock coming out
of a clay bluff, cold & raining - we climbed up back of cr
som 200' long of names & ret. to the party

178 Stewart 50 (N) - Pan CR - near a steeple on ch, 200'
one of the main landmarks

Quill 60 - (N) Camp app

Bath 52 - pass CR app 6/11 C. Get it & Devils

Brock Hill, a poor camp

26 Cageni 50 6/13 app c. a ... in app ... a huge Demigoin
The nozzle, many 250' high, giving ample vent to all the
mag. flames of the rift of hills round about

Hogelohi 50 must like a roof up tall chimney over
250' hi - water, powdered

Hampton 52 - 3 1/2 rate of spring here, 3 m f CR - on grand
scenery, hi rocky bluffs, 10 Gs ... 6/18 went & took a view
of CR There is many names in it 200' f the bottom - There is
a gr many curiosities here, The rocks are ... in a gr many shapes
CR 524 m f 50

Waters 64 See cr at Ancient Bluffs (NS) 40 m ... CR
Circ shaped, perhaps 60' diam at base, & tapering a ways. Then
carries its size to the top ch is said to be 200' but of late
part of the top fell off

Buffum 49 - 6/7 - deceitful plain, ... asc 150' &
cave name ... 300' - lower part cemented stone, the
tower is basalt ... appears to von stamen of lightning ...
much cracked, & doubtless 20 yrs will send its pinnacle
to the ground, & it is cause to the gr curiosity of the region

Blackman 53 p. CR - beam specimen of the rks of mature &
the basement covers abt 6 acres of gr

Rose, R 52 .. saw cr today

Littleton 50 - CR Crap in app ... 150' hi, said to be 250

X ... w CR group of square masses ... 5 of them ... 8 Gs

XX Gage 52 - horse tour to CR - indeed a ge wonder the
gro that I've ever yet seen

Schelle 50 See Chap. granite hills of all shapes & sizes
both sides

XX Thomas 50 5/25 ... Very much like a round capstone of the
Loring road running above the Section - base about 1/4 m across
not less than 600' base to top. I went up it at 4:30. Then it
became so steep that they were felt short cut in so we could climb
up at 25' further then we could see where some had cut notches &
drove little sticks to climb at 20' further but did not venture up.
I suppose that there is not less than 2 thousand names sites - dip in places
-- frantically peat & spontaneous growth all over this country

XX Lewelling 50 - all for trader's records - 9 rattle snakes
drawing

Blom 50 - like some vast giant leaning of. The distant
clouds, stately sentinel at the entrance to some enchanted
fairy land

Murphy 54 - pan CR - 2 tps here, also a lot shops -
C on bottom, & up 56 - go many trains - signs

Chamboulay 49 - one abt 1 mi L CR - full view - in
a valley with a few ponds one near by so that we
could not use it - ~~fine handsome road~~

Lott 49 6/22 left a ch wa at 4 mi L CR - near air of
springs of wt & marched to rock at 9 AM - good spring in
the bluff near it

Barton 65 (65) 9/21

X M. Moore 59 - opp - the distance like a steep, tall
and slender. C. opp the dotted rock route - 6/29 visited
CR. The mfg. up m.m. We asc. the rock to where the
chomney sits off but could get no higher. the boys went
up the slope, they looked like mere doll babies up so
far. the rock is composed of a kind of clay easily broken
& it soon all crumble to pieces. C 2 m above the stage str.
every body small or puny.

Hate 49 - spiral column

GA Smith 52 - on rising the mfg we beheld CR in dist. - sit -
Open plain left of road, the spine is 200' hi up by base nearly
100' sq - you can see at distance of 60 m ... C. The Eve of
a lg cor of Is - Red brick the chief

Can 50

Langth 50: - another vast heap of sand blown up to the
height of 250' - the slope of a hay stacks w/ a spiral of
150' x 50' diameter

Unepature 49: - a/ft 7 1/2 m hnd walking, at its base. Curving
of base is 1/2 mile. on one side there is a slope of which one
can ascend 1/2 way to top. I asc. about 200' ch is about

As high as I can go of the rock become perp. on all sides many Fs & curved thin narrow here, so many that there is scarcely room for another. halston, water over best-tops. Mosquitoes up number 2 on the top of Stone 49. CR had a shot tower at a gr distance. normal nearly opp the CR I thought it was not over 2 m from us & it to go to it. but found that it was 4. It is a very singular pile. the base is very steep so much so that it is impo to climb on some sides. the C is rough & looks as if it would resist stand a while. the whole hill & rock is covered of a red hard clay or soft stone & on each I ch up to the base of the C & cut my name among them. I cut away in a sh time to make room for another. Patterson 58 along column 200' hi, stdy on a cone of same height. Peace 49 - opp CR - unpicked a trap to air them we found nothing improved of the rain though done some work. This way Wilson 50

Dennis 50 - sit on a lg mound, 50' hi. c in mandarin of CR Byrnes 53 - opp CR, single sharp a column rising to the summit of (NS) a conical hill to height of 300'. base CR is part way along Shubert 49 - one of the most grand & splendid objects I ever saw it (is) 10040 steps round the base 600' hi. The first 250 is like a lg chapel mound then a gap of hard sand extends almost to the clouds. it ch close to the mountain ch in mass of the power of man. The Imon. appears to be split all the way down on the Xth top then appears to be a piece of stone formed of the conglomerate road just opp to it was bed by a low gr mpls to which would cut thru the type & point to the hole in soft stand we had to unload the big double beam

Groton 53 visited CR 500' hi. P. an I will. trailers Yang 50

Easton 49 - in distance. stands out in bold relief ag the western horizon, & looks like a ch. shape in far distance, no lgs than a man's body. c. 5 m CR. p. base of what I v m. Spring R., where we found a spr. are to base of ch. 75' dia. 100' hi. splendid view incl S.B.s pointing in close to the river. no time to visit town Rock.

Decompt of hills bet. Ch & 50. make a skates. Gelwick 49 - in diggman of distance, & towering to the heavens. we saw CR. It first app like the neck of an ostrich. Then around the app. of a stuple as we app. it. From give an ecc demp. will wait a visit across the Plains to see them. 30 m - a clear day. - 8 m of CR no less than 6 ft. seen (bin mound)

X

XX

X

Butterfield 61 / Ar. 4 m + c. opp + 2 m / CR + 50% sandstone - very hard clay. Arc. base 150 mi, above this a column 30-40' sq. size another 125 m. It seemed to be dissolving quite fast, doubtless are thin it has all gone down. - we had seen of 50 -

Lester 49 / Sketch of CR

Young 49 / habitat along CR. 200' hi, 18 m / Ch to CR legs near CR mixed in / plenty of greenish pebbles

Goodyear 47 / - a straight column set up - the top of a high hill, this much higher than chimney gns. are, ~~perhaps~~

Hewitt 62 / (NS) - a rough specimen of the monumental art, hemm out of nature, the oblique column stands on a pedestal. the whole opp to 60' hi - to the west side of rock, ea. of some distinct feature. - the main one, w/ its perp. walls + round centre, seems to form a Capitol

Barley 52 / - shot tower - St Louis. Toward eve rode up to R. left a horse at base. climbed up 100 of the 300'

Bilshaw 53 / - divine opp CR a splendid piece of work of nature (NS) had had to keep a coil of string to alkali water

Scott 49 / Chimney tower - cement, opal clay + sand. It is here, on earth has moulded away + as the towers + left them stdy to wonder at 3 m.

M. Burke 50 / in art gallery 50

Gorgan 50 / - ancient stupendous castle now deserted - a square acin dug to lapse of ages - thousand of name cut + weather up lead pencil. - ev. div. etim. many names nearly effaced

Tompson 50 / - 12 m d be the wanderer to CR, a prominence in spec. still the that of CHR. - pyramidal base 125, surmounted by a column, 100' hi

Miller 49 / - 7/27 c 5 m w CR. 7/28 caps Hyde sick, sisters wash. - smithy to dinner 7/29 - cross to SS

Stinson 50 / - slim perp column of top of conical ship hull

Chambers 511

Street 491 7/4 Fined 3 valleys of brown of the day & gave 3 chains
of - all the England. CR looks up like Bunker Hill Mammot - distance
2/5. rough sketch of CR. base of a man arc. The cone to the
prop. shaft, but none could get further.

McCoy 491 - a slight sketch of mng may be said to see a chimney
acc to old planim. it could formerly be seen as far as a ash creek ?

Udrea 501 (NS) shaped like a cone chimney

~~Lobster 511~~

~~Chandler 521~~

~~Henderson 581~~

~~Lamborne 511 sketch. Half way Post (?)~~

Cartwright 521 (NS) stone so clear, the extent of vision is almost incredible.
When we were off Chocks we a 5 m / hr, & about 25-30 m of rocks; yet we could dis-
tinctly see them & could also trace the outline of trees as they stood up. There
a ota no. to assembly of old chimneys - a man at a distance of 3 m would
see to 10-12' tall

Cole 521 (p. 41) - now about scenery. There 3 chks

Looms 501 - The Spyglass - it app to be a hi mound, at the
slope of a potato-hole

Webster 491

Smith 501 300'. some of 5-800. Thousands of man
in the plaster material, at least to cause my own, deposit of stones

Wesley 391 still in the last cliff of the same chain. Its tower
like top is seen / 30-40 m, / ch reason it also c the chimney. Cone -
shaped base. pyramidal top. 525'

Carter 491 quite a curiosity. stands out of the face of a bluff
as a mound. 300' 25 m mound in form of a kind of
propstone, if not warty enough. like ch by mill or factory

Dickson 641 (NS) solitary slope of sand rock. We were told
that some yrs earlier ca of rocks on top of structure had to a man came
for it, heavy off about 30' of the top. mng's

Townsend 321 a kind of obelisk

Moswell 571 stone chimney of ch the top had been burned
away - a time-chiseled mound (NS)

McCracken 421 very rough mound very like a pyramid 100 +
then a prop column just 200. depth - distance (most narrow) 90 m

McGloth 501 wul. rain & wind the bluffs into occasional shapes.
The voyagers & give name are to our familiar records. - costs 7

CR was the most remarkable landmark we've seen since by the mo. R. It is at 300' hi & shoots up in the form of a shaft or column, for a heavy base of stone, & all about it on the wide treeless plains. It is covered of hard red clay, w/ alk. layers of red & white sandstone, it is seen at a dist. of 50 mi. towers above the hills & plains. The rocks where we first became in daily pic & grand, if we were near the R.R.s.

Hamlet Scott 1862 - p. CR. This rock stands on a sand bar & is 30' hi & about 6' in diameter at the top.

Benson
